Alphabetical index Add and modify fields

Related articles

#### **Azure Boards**

Use this index to look up a description of a field used to track an issue, task, or epic. This reference includes all fields defined for the Basic process. If you use another process—such as Agile, CMMI, or Scrum—see Work item field index for additional field definitions.

To support additional tracking needs, you can define your own custom work item fields.

## Alphabetical index

### Α

- Activated By
- Activated Date
- Activity
- Area ID
- Area Path
- Assigned To
- Attached File Count

#### В

- Board Column
- Board Column Done
- Board Lane

## Add and modify fields

To add fields to a process, modify select field attributes, and review fields added to a process, see <u>Customize a process</u>.

Also, you can view the list of fields defined for an organization and the WITs which reference them.
